Contents of Volume 28, 1989

Number One

Large systems and Enterprise Systems Architecture 4
B. R. Aken, Jr.

Enterprise Systems Architecture/370: An architecture for multiple virtual space access and authorization 15
C. A. Scalzi, A. G. Ganek, and R. J. Schmalz

Concepts of Enterprise Systems Architecture/370 39
K. E. Plambeck

Storage hierarchies 62
E. I. Cohen, G. M. King, and J. T. Brady

System-managed storage 77
J. P. Gelb

Multiple operating systems on one processor complex 104
T. L. Borden, J. P. Hennessy, and J. W. Rymarczyk

The facilities and evolution of MVS/ESA 124
C. E. Clark

MVS data services 151
K. G. Rubsam

VM/XA SP2 minidisk 165
G. P. Bozman

VM/XA storage management 175
G. O. Blandy and S. R. Newson

Number Two

Evolution of the DASD storage control 196
C. P. Grossman

Local-area distributed systems 227
R. C. Summers

System-independent file management and distribution services 241
J. C. Ashfield and D. B. Cybrynski

Managing changes in SNA networks 260
C. P. Ballard, L. Farfara, and B. J. Heldke

REXX on TSO/E 274
G. E. Hoernes

Program understanding: Challenge for the 1990s 294
T. A. Corbi

DS-Viewer—An interactive graphical data structure presentation facility 307
D. P. Pazel

A program understanding support environment 324
L. Cleveland

Technical note—Engineering and Scientific Subroutine Library Release 3 for IBM ES/3090 vector processors 345
R. C. Agarwal, F. G. Gustavson, J. McComb, and S. Schmidt

Number Three

System overview of the Application System/400 360
D. L. Schleicher and R. L. Taylor

Design, test, and validation of the Application System/400 through early user involvement 376
B. J. Pine II

A new development rhythm for AS/400 software 386
R. A. Sulack, R. J. Lindner, and D. N. Dietz

Application System/400 performance characteristics 407
B. E. Clark and M. J. Corrigan

The Application System/400 help facility—design philosophy and considerations 424
D. A. Charland

Design rationale of the AS/400 interface 443
J. H. Botterill

Object-oriented programming 465
R. P. Ten Dyke and J. C. Kunz

A message management system for personal computers 479
L. d'Arielli

Number Four

History and contributions of the IBM Scientific Centers 502
H. G. Kolsky and R. A. MacKinnon

Visual programming: Perspectives and approaches 525
N. C. Shu

The WINSOM solid modeller and its application to data visualization 548
J. M. Burridge, B. M. Collins, B. N. Galton, A. R. Halbert, T. R. Heywood, W. H. Latham, R. W. Phippen, P. Quarendon, P. Reilly, M. W. Ricketts, J. Simmons, S. J. P. Todd, A. G. N. Walter, and J. R. Woodwark

Data visualization in archaeology 569
P. Reilly

GARDEN—An integrated and evolving environment for ULSI/VLSI CAD applications 580
A. H. V. de Lima, R. C. B. Martins, R. Stern, and L. M. F. Carneiro

An Arabic morphological system 600
T. A. El-Sadany and M. A. Hashish

Designing molecules and crystals by computer 613
A. Koide

S*P*A*R*K: A knowledge-based system for identifying competitive uses of information technology 628
P. Gongla, G. Sakamoto, A. Back-Hock, P. Goldweic, L. Ramos, R. C. Sprowls, and C.-K. Kim

Concurrent computing by sequential staging of tasks 646
J. Gazdag and H.-H. Wang

Advanced Information Management (AIM): Advanced database technology for integrated applications 661
P. Dadam and V. Linnemann

Technical note—Computer sculpture 682
W. H. Latham and S. J. P. Todd
